

LN series

Linear LED Luminaires

The LN series has a slim profile.

They are produced at any length and can adapt to uniform linear interior lighting requirements.

They have excellent performance.

They are made of aluminium, light-weight, and painted with electrostatic powder coating in any RAL colour. Their installation is easy; they can be suspended or installed in a suspended ceiling.

Additionally, the LN-XT versions have a high colour rendering index of CRI> 90 and meet the requirements of spaces and activities where faithful colour rendition is important.

LN luminaires have a five-year warranty.
